Introduction

Klaxon Signals manufactures the world’s largest range of sound signalling equipment and solutions for the European and worldwide market place.

Product Range
Klaxon’s extensive product range includes: electronic sounders; voice enhanced sounders; sirens; beacons; bells; and buzzers. These products can be used in a variety of applications and are categorised within Klaxon’s internal strategic business units: Fire; Industrial; Emergency Warning Systems. This brochure features products for industrial signalling applications.

Worldwide Distribution Network
Klaxon’s distribution network gives the benefit of experienced staff, both on a global and local basis, and are fully conversant with Klaxon’s visual and sound signalling equipment.

Commitment to quality and innovation
Working to ISO 9001, Klaxon’s manufacturing team has the latest production, testing and demonstration facilities, including PCB design and anechoic chambers to ensure the highest possible standards of manufacture and product quality. A continued product development programme, complemented by rigorous quality checks, gives customers the most up to date product offering available in today’s market.

Product Approvals
Legislation plays a key part in keeping sounders and safety systems up to date. For example, the Construction Products Directive (CPD) requires that fire system components sold in Europe have to comply with the relevant part of EN54.

Klaxon Signals is dedicated to continual third party testing and certification both in home and export markets.

Technical Manager

Klaxon Signals works alongside partner organisations and customers to ensure its products, and the installation of its products, are in line with LPCB, ISO9001, EN54, BS5839 and DDA requirements. Any organisation or individual wishing to discuss its, or Klaxon’s, obligations regarding new legislation may contact Klaxon’s technical team directly or visit www.klaxonsignals.com
Sounders

Range of sound outputs for various audible warning applications.
Sonos Sounder (DC)

A general purpose electronic sounder. Features the TimeSaver base where connections are made to the base during the initial wiring phase which results in faster and more reliable installation. The sounder head "twists and clicks" into the base on commissioning, avoiding the wiring and connection problems associated with traditional sounders.

Deep base units have weatherproof protection to IP65 and can be used in all locations both indoors and outdoors.

Sonos Sounder units are available in either red or white and with a choice of deep or shallow TimeSaver bases.

Features

- Wide voltage range
- Simple ‘First Fix’ installation
- 2 alarm stages
- 32 tones
- Tone and volume can be preset or adjusted off-base
- Weatherproof to IP65 (deep base units)
- Synchronised alarm tones
- Volume control - Typical 8dB

Applications - Fire; security; Industrial alarm

IP Rating: IP65 (deep base)  IP21 (shallow base)  Operating Temp: -25°C to +70°C  Construction: Flame Retardant Polycarbonate  Cable Entries: Deep Base: 2 x 20mm cable glands  Weight: 0.22kg (shallow base) 0.25kg (deep base)  Compliance: ENS4 3 Type A (shallow base) ENS4-3 Type B (deep base)
Sonos Sounder (AC)

A general purpose AC electronic sounder for industrial applications.

With a choice of 32 tones including all the major European standards, Sonos is suitable for use across Europe.

Sonos AC sounders are weatherproof to IP65 and can be used in all locations both indoors and outdoors.

Sonos sounder units are available in either red or white.

Features

- Dual Voltage 110V AC or 230V AC
- Up to 102 dB (A) @ 1 metre
- Weatherproof to IP65
- Synchronised alarm tones
- Volume control - 20dB

Specifications

- IP Rating: IP65
- Operating Temp: -25°C to +55°C
- Construction: Flame Retardant Polycarbonate
- Cable Entries: 2 x 20mm cable glands
- Weight: 0.25kg
- Compliance: EN60950
Nexus Sounder (DC)

This high output sounder is designed for industrial applications.

Connections are made to the base during the initial wiring phase which results in faster and more reliable installation. In addition, the head is fixed by quarter turn fasteners enabling faster installation and accurate seal compression for weatherproofing.

IP66 as standard means that Nexus can be installed in almost any location.

Features

- Three alarm stages
- First-fix, wire to base technology
- IP66 rated
- Volume control for greater flexibility - 20dB
- 64 tones

Applications - Fire alarm; conveyors; process control alarm; cranes; moving machinery; general signalling

IP Rating: IP66  Operating Temp: -25°C to +70°C  Cable Entries: 5  Weight: 105dB Sounder - 0.7kg; 110dB Sounder - 1.1kg; 120dB Sounder - 1.8kg  Compliance: EN54-3 Type B
Nexus Sounder (AC)

This high output sounder is designed for industrial applications.

Connections are made to the base during the initial wiring phase which results in faster and more reliable installation. In addition, the head is fixed by quarter turn fasteners avoiding the need to screw up four individual screws thus enabling faster installation and accurate seal compression for weatherproofing.

IP66 as standard means that Nexus can be installed in almost any location.

Features

- Three alarm stages (110dB & 120dB variants)
- First-fix, wire to base technology
- IP66 rated
- Volume control for greater flexibility - 20dB
- 64 tones
- Low voltage option

Applications

- Conveyors; process control alarm; cranes;
- moving machinery; general signalling

Beacons

High efficiency LED and high output Xenon beacons for visual indication.
Sonos LED Beacon (DC)

A general purpose beacon. Features the TimeSaver base where connections are made to the base during the initial wiring phase which results in faster and more reliable installation. The beacon head “twists and clicks” into the base on commissioning, avoiding the wiring and connection problems associated with traditional alarm devices.

Deep base units have weatherproof protection to IP65 and can be used in all locations both indoors and outdoors. The Sonos Beacon utilises a full faced, translucent case which provides a much larger lens area and a greater spread of light.

Sonos Beacon units have a deep or shallow red colour base as standard and are available with a red or amber lens.

Features

- High efficiency LED beacon consumes less than 5mA
- Simple 'First Fix' installation (no second fix wiring)
- Weatherproof to IP65 (deep base units)
- Synchronised flash

Lens Colour Options

- Red
- Amber
- Clear

Sonos Xenon Beacon (5J)

A general purpose, high output xenon beacon designed for industrial applications.

Sonos xenon beacons are weatherproof to IP65 and can be used in all locations both indoors and outdoors.

The Sonos xenon beacon unit utilises a full faced, translucent case giving a much larger lens area. This results in a far greater light spread for more effective warning.

Features

- High output 5J xenon beacon
- 10-60V DC or 110/230V AC
- Simple ‘First Fix’ installation
- Weatherproof to IP65
- Synchronised flash (DC version)
- Single/double flash (DC version)
- No surge current

Flashguard LED Beacons

Flashguard weatherproof LED beacons are ideal visual indicators in a variety of applications.

All Flashguard beacons are fitted with a diffuser for greater visibility and spread of light. Two styles are available: Standard and Ultra Low Profile.

**Standard**: includes a terminal block and a 27mm deep base supplied with a seal and grommet.

**Ultra Low Profile**: comes complete with a screw and nylon wing nut and is supplied with mounting gasket and 40cm of cable.

A weatherproof cable connector is available to upgrade the product from IP65 rating to IP67.

**Features**
- Compact, ultra modern sleek appearance
- Long life LED design
- Ease of installation with first-fix option on standard models
- Weatherproof to IP67 (with cable connector)
- White, high quality polycarbonate housing
- Vandal-resistant safety locking mechanism
- Flashing or static indicators

**Lens Colour Options**

Red, Amber, Clear, Blue, Green

Sounder Beacons

Combined sounder beacons for audio visual warning at the same point.
Sonos Sounder Beacon (DC)

A general purpose electronic sounder for fire, security and industrial applications; the Sonos Sounder Beacon is certified to EN54.

With the TimeSaver base, connections are made to the base during the initial wiring phase which results in faster and more reliable installation. The sounder head ‘twists and clicks’ into the base on commissioning, avoiding the wiring and connection problems associated with traditional sounders. With a choice of 32 tones including all the major international standards, the Sonos Sounder Beacon has universal acceptance.

Features
- Low current LED beacon
- Simple ‘First Fix’ installation
- Weatherproof to IP65 (deep base units)
- Choice of lens colours
- Sounder and beacon can be controlled separately
- Tone and volume can be preset or adjusted off-base - 20dB
- Separate connections for sounder & beacon

Sonos Sounder Beacon (AC)

A general purpose AC electronic sounder beacon for industrial applications.

With a choice of 32 tones including all of the major international standards, the Sonos sounder beacon has universal acceptance. The full faced translucent beacon case provides a greater spread of light when compared with standard and competitor beacon products.

Sonos AC sounder beacons are weatherproof to IP65 and can be used in all locations both indoors and outdoors.

Features

- Dual voltage 110V AC or 230V AC
- Up to 102dB (A) @ 1metre
- Easy installation
- Weatherproof to IP65
- Synchronised alarm tones
- High efficiency LED beacon
- Volume control - 20dB

- Safety; industrial alarm
Nexus 105 Sounder Beacon (DC)

The Nexus 105 is a high output, low current consumption sounder beacon designed for fire and industrial applications. Connections are made to the base during the initial wiring phase which results in faster and more reliable installation. In addition, the head is fixed by quarter turn fasteners avoiding the need to screw up four individual screws thus enabling faster installation and accurate seal compression for weatherproofing. The Nexus Sounder Beacon is available with a high efficiency LED or high output xenon beacon. The combination of a powerful sounder and high output beacon ensures a very effective audio-visual signal. 110dB and 120dB units, as well as AC variants, are also available.

Features
- High sound output: 113dB (max); 105dB (typical)
- 5J xenon or high efficiency LED beacon option
- Quarter turn fasteners for ease of installation
- First-fix, wire to base technology
- IP66 rated
- Three alarm stages
- Low in-rush current (LED only)
- Static/flashing mode (LED only)
- Volume control for greater flexibility - 20dB
- 64 tones
- Separate connections for sounder & beacon

Nexus 120 Sounder Beacon (DC)

The Nexus 120 is a very high output sounder beacon designed for fire and industrial applications. Connections are made to the base during the initial wiring phase which results in faster and more reliable installation. In addition, the head is fixed by quarter turn fasteners enabling faster installation and accurate seal compression for weatherproofing. IP66 as standard means that Nexus can be installed in almost any location. The Nexus Sounder Beacon is available with a high efficiency LED or xenon beacon. The combination of powerful sounder and high output beacon ensures a very effective audio-visual signal. 105dB and 110dB units, as well as AC variants, are also available.

Features

- High sound output 120dB (typical)
- Three alarm stages
- 5J xenon or high efficiency LED beacon option
- Quarter turn fasteners for ease of installation
- First-fix, wire to base technology
- IP66 rated
- Volume control for greater flexibility - 20dB
- Low in-rush current (LED only)
- Static/flashing mode (LED only)
- 64 tones
- Separate connections for sounder & beacon

Voice Sounders

Added voice message capability for clear and effective warning.
Voice Sounders

Sonos Voice
Sonos voice sounders combine normal sounder signals with a clear, synchronised voice message to help reduce confusion and distress during an active alarm.

Available with up to 7 pre-programmed messages, selected from an extensive message library covering almost any conceivable application. Bespoke messages are also available on request.

Features
- Capable of playing up to 7 messages over two wires with a message controller (see page 28)
- 106dB (A) tone and 80dB (A) message outputs
- Extensive message library or bespoke messages available
- Automatic synchronisation
- Easily retro-fits to existing installations
- Includes alert tone
- High efficiency LED Beacon option

Lens Colour Options

Applications - Fire; Industrial; General safety alarm

Nexus Voice Sounder (DC)

Nexus voice sounders combine normal sounder signals with a clear, synchronised voice message to help reduce confusion and distress during an active alarm.

Standard units are available with up to 7 pre-programmed messages. Alternative messages can be selected from an extensive message library covering almost any conceivable application. Customised messages are also available on request.

All Nexus voice sounders have a USB port that allows special messages in WAV format to be downloaded onto the sounder from any PC, providing users with the flexibility of adding/removing messages in-field.

Combined with an LED or Xenon beacon the Nexus sounder can form part of a DDA compliant system giving a clear voice message, powerful alarm tone and high output beacon for clear and effective warning.

Features

- Choice of up to 7 messages via three volt free contacts
- Extensive message library or bespoke messages available
- Download messages in-field via built in USB port
- Max 116dB (A) tone and 90dB (A) message outputs
- Automatic synchronisation
- Robust construction; IP66 rated for outdoor environments
- Volume control - 20dB
- Separate connections for sounder & beacon

Nexus Voice Sounder (AC)

Nexus voice sounders combine normal sounder signals with a clear, synchronised voice message to help reduce confusion and distress during an active alarm.

Standard units are available with 4 pre-programmed messages, selected from an extensive message library covering almost any conceivable application. Bespoke messages are also available on request.

All Nexus voice sounders have a USB interface that allows special messages in WAV format to be downloaded onto the sounder from any PC, providing users with the flexibility of adding/removing messages in-house.

Features
- Choice of up to 4 messages
- Extensive message library or bespoke messages available
- Download messages in-house via built in USB port
- Max 116dB (A) tone and 90dB (A) message outputs
- Automatic synchronisation
- Robust construction; IP66 rated for outdoor environments
- Volume control - 20dB
- Separate connections for sounder & beacon

Nexus 2-Wire Voice Sounder Beacon

Nexus voice sounders combine normal sounder signals with a clear, synchronised voice message to help reduce confusion and distress during an active alarm.

The Nexus 2-Wire Voice sounder beacon has been specifically designed to be used with either the Message controller (see page 28).

Available with 4 pre-programmed messages. Alternative messages can be selected from an extensive message library covering almost any conceivable application. Customised messages are also available on request.

All Nexus voice sounders have a USB port that allows special messages in WAV format to be downloaded onto the sounder from any PC, providing users with the flexibility of adding/removing messages in-house.

Features

- Choice of up to 7 messages over a two core cable
- Extensive message library or bespoke messages available
- Download messages in-field via built in USB port
- 110dB (A) tone and 90dB (A) message outputs
- Automatic synchronisation
- Robust construction; IP66 rated for outdoor environments
- Volume control - 20dB
- Separate connections for sounder & beacon

**Message Controller**

When combined with a Message controller, voice sounders can transmit up to 7 messages via a simple two-core cable.

The control unit has two status indication LED’s mounted on its front face; a green ‘System Health’ indicator and an amber ‘fault indicator’.

**Features**

- Enables voice sounders to transmit up to 7 messages via a two-core cable
- Fully synchronised voice messages
- System health indicators
- Simple operation
- Compatible with any of the Sonos Voice Sounders and the Nexus red LED voice sounder beacon (PNV-0003)

**Applications** - General signalling

Hazardous Area Equipment

Audible and visual signalling for potentially explosive environments.
Hazardous Area Equipment

EXD Sounder

The EXD Sounder has been approved for use in potentially explosive atmospheres and very harsh environmental conditions.

The unit incorporates a three stage alarm option with sixty three tones to choose from which includes four tones that can be recorded or customised by the installer. All tones can be pre-set during installation.

The units also have the ability to be fitted with a telephone initiation function and can be used as the second ring output indicator for telephones when installed in very noisy environments.

The design allows for termination inside the enclosure. The sounder is supplied with a mounting bracket as standard.

Features

- Approved by ATEX and CQST • IMETRO and IECEX (Pending)
- ATEX: II 2G Exd IIC T4 - T6 (incorporating IIA & IIB)
- Zones 1&2, Zones 21&22 (Pending)
- Conforms to EN (IEC) 60079-0 EN (IEC) 60079-1 and EN54
- Volume control
- Dustproof & Weatherproof

Approvals & Conformities

Applications

Oil and Gas, On-shore and Offshore, Chemical, Petrochemical, Refineries & Marine locations etc.

EXD Bell

The Exd Bell is designed for use in Zone 1 and 2 areas and for areas requiring a high degree of weatherproof protection. IP66 rated and certified to ATEX II 2G Exd e IIC T6, it can be used in almost any environment.

With a sound output of up to 105dB, it provides a clear signal which stands out against background noise. A telephone ringing version is also available.

The housing is manufactured from glass fibre reinforced polyester with stainless steel fittings designed to cope in arduous conditions. In addition, all DC versions are equipped with a non-wearing electronic contact breaker which gives a long and reliable life.

Features

- Rated for Category 2 use (formerly Zone 1 & 2)
- ATEX approved
- II 2G Exd e IIC T6
- Clear audible signal designed to penetrate background noise
- Weatherproof to IP66
- Rugged construction
- Choice of voltages

EXD Buzzer

The Exd Buzzer is an explosion proof buzzer designed for use in hazardous areas where a distinctive signal is required. Certified to ATEX II 2G Exd e IIC T6, it is suitable for use in Zone 1 and Zone 2 areas.

Producing a tone with low frequency, it cuts through background noise more effectively than many other devices of a similar output.

Mounted in a rugged reinforced polyester case and weatherproof to IP66, it is suitable for use in the most arduous conditions.

Features

- Rated for Category 2 use (formerly Zone 1 & 2)
- ATEX approved
- II 2G Exd e IIC T6
- Heavy duty buzzer
- Weatherproof to IP66
- Rugged construction

Weight: 3.5kg
Motor Driven Sirens

Robust, high sound output sirens for areas with high background noise and harsh environmental conditions.
Motor Driven Sirens

**Mini Mono P**

The Mini Mono P is a small motor driven siren designed for fire and general alarm signalling.

Designed for ease of mounting, it has a separate mounting plate which connects to the main body with a bayonet locking action and has a locking screw for additional security.

The mounting plate is suitable for surface mounting or for use with a conduit (BESA) box depending on installation requirements.

**Features**

- High quality siren sound
- Bayonet mounting plate for ease of installation
- Choice of voltages
- Low voltage DC and high voltage AC for use in all applications

**Applications** - Fire alarm; general purpose alarm; process control; time signalling

Mono 72

The Mono 72 is a powerful motor driven siren which produces a clear, high output siren sound. With its weatherproof design, the Mono 72 can be used both indoors and outdoors for general safety warning.

Features

■ High output siren sound (120dB)
■ Rugged construction for use in all environments
■ Weatherproof to IP65
■ Mounting bracket for ease of installation

Applications

- General safety warning; conveyors; process control alarm; vehicle alarm

Motor Driven Sirens

Duplo

The Duplo is a powerful motor driven siren which produces a very high sound output despite its physically compact construction.

With its weatherproof design, the Duplo can be used both indoors and outdoors for general safety warning.

Features

- High output siren sound (127dB)
- Rugged construction for use in all environments
- Weatherproof to IP65A
- Mounting bracket for ease of installation

Applications

- General safety warning; conveyors; process control alarm; vehicle alarm

Specifications

IP Rating: IP65A  Rated Operating Duration: 15mins On/120mins Off  Frequency: 1600Hz  Operating Temp: -30°C to +40°C  Construction: Cast Aluminium Body; ABS Rotor, Stator and Cover  Cable Entries: 1  Weight: 2kg
Super M

The Super M is a powerful motor driven siren which emits a very high sound output. Designed for surface mounting, it has a separate mounting bracket which may be secured in position first to allow for easy installation. In addition, it comes pre-wired with 1 metre of cable.

The Super M is ideal for applications where a higher sound output is required such as in areas of high background noise.

Features

■ High output siren sound (127dB)
■ Separate mounting bracket for easy installation

Applications - General safety warning; conveyors; process control alarm; vehicle alarm

Motor Driven Sirens
SO4

The SO4 is a weatherproof motor driven siren designed for vertical mounting and designed for outdoor warning over small/medium areas.

Manufactured from cast aluminium, it is rugged in construction, has a continuous rating and is built for a long life outdoors.

Features

■ High sound output (up to 125dB)
■ Powerful low frequency sound
■ Weatherproof to IP55
■ Vertical siren for easy mounting
■ Low voltage DC and high voltage AC variants

Applications - Fire alarm; security alarm; general safety warning; conveyors; process control alarm; vehicle alarm

IP Rating: IP55    Rating: Continuous    Frequency: 900Hz    Operating Temp: -30°C to +45°C
Construction: Cast Aluminium Body    Cable Entries: 1    Weight: 4.5kg
Hand Operated Sirens

Designed to provide warning in applications where there is no power supply.
Hand Operated Sirens

**Lightweight Hand Operated Siren**

The lightweight hand operated siren is designed to provide effective warning in applications where there is no power supply such as camp sites, civil defence, mountain rescue and coast guard warning.

The siren is lightweight, can be easily transported to remote locations and folds up to a small and compact size for ease of handling.

This model comes complete with carry case, making it the ideal choice where portability is crucial.

**Features**

- No power supply required
- Lightweight model for portability
- Powerful low frequency sound
- Universally recognised signal
- Carry case included
- 2 tones: continuous and warble
- 116 dB @ 1 metre

**Applications**
- Camp sites; civil defence; mountain rescue; coast guard warning; quarries/ mining

**Specifications**

**Specifications**

- **IP Rating:** N/A
- **Rating:** Continuous
- **Frequency:** 600Hz Nominal (Dependent on Rotation Speed)
- **Dimensions:** See Diagram
- **Weight:** 4kg

Maximum dimensions
Stand height: max 1m, min 0.6m
When folded: height 0.2m, base tripod 0.03m x 0.03m x 0.03m
Heavy Duty Hand Operated Siren

The heavy duty hand operated siren is designed to provide effective warning in applications where there is no power supply such as camp sites, civil defence, mountain rescue and coast guard warning.

Powered by rotating the handle, this siren has a plate to shut off the sound once up to speed giving it the ability to produce three different tones.

Robust and compact, the siren can be easily transported to remote locations and folds up to a small size for ease of handling.

Features

- No power supply required
- Robust and compact for portability
- Powerful low frequency sound
- Universally recognised signal
- Shutter mechanism to provide three or more signals
- 120 dB @ 1 metre
