

Beacons

Industrial Xenon Beacon (10J)

Features

- Choice of red, amber, blue, green and clear lens
- Weatherproof to IP65
- Choice of voltages
- Single or double flash
- Range of accessories available

Overview

Flashguard industrial xenon beacons are available with a choice of voltages and colours. Weatherproof to IP65, they are ideal for almost any industrial application.

Xenon beacons are available in either 10J or 24J units and are designed for surface mounting.

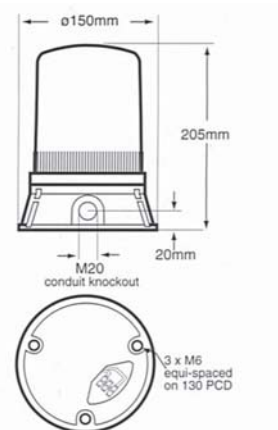

The 10J unit is a high intensity beacon with Fresnel lens which produces a penetrating light in the most adverse conditions. Suitable for larger areas, it can be selected for single or double flash.

A range of accessories is available including a protective cage guard and a wall bracket.

- Fire
- Railway/Marine
- Security
- Hazardous Area
- Industrial
- Public Warning

Applications

- General alarm; status indicator; emergency warning; security warning

Part No.	Colours	Output	Flash Rate	Voltage	Current
43-313314	Red Lens	10J/7.5J	1 or 2 Hz	12/24V DC	1.45/0.7 A
43-313324	Amber Lens	10J/7.5J	1 or 2 Hz	12/24V DC	1.45/0.7 A
43-311314	Red Lens	10J/7.5J	1 or 2 Hz	115V AC	0.10 A
43-311324	Amber Lens	10J/7.5J	1 or 2 Hz	115V AC	0.10 A
43-312314	Red Lens	10J/7.5J	1 or 2 Hz	230V AC	0.06 A
43-312324	Amber Lens	10J/7.5J	1 or 2 Hz	230V AC	0.06 A

IP Rating: IP65 Rating: N/A Flash Rate: 60 or 120 Per Minute Operating Temp: -25°C to +66°C
 Construction: Polycarbonate Toughened UV Stable Dome Cable Entries: 1 Weight: 0.82kg
